DETAILED ACTION

Response to Arguments

Applicant's arguments filed 8/19/2008 have been fully considered but they are not persuasive. The Examiner contends that the reasoning presented in the prior office action is reasonable and does not agree with the applicant's narrow interpretation of the references. Specifically, the applicant's vaguely disclosed and broadly claimed concept of inheritance cannot be in any way viewed as being patentably distinct from the concept of taking information for a single user from the properties of that user's neighborhood; a concept clearly laid out in the rejection as being taught by Rangan. The applicant has not even made an attempt to explain how this concept shown in the rejection is not inheritance. Instead the applicant makes technical arguments against the rejection that do not seem to be based on factual evidence or sound reasoning. For these reasons the rejection is maintained.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 149-183 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent Number 6,006,265 to Rangan et al. in view of U.S. Patent Number 5,784,560 to Kingdon et al.

The rejections are maintained from the prior office action mailed on 5/21/2008.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
